PROFESSIONAL SUMMARY

Passionate and results-driven VR/Game Developer with over 3 years of experience in creating immersive, innovative experiences using Unity and C#. Proven ability to contribute to the full project lifecycle, from design and feature implementation to optimization and bug fixing. Seeking to apply my expertise in interactive design and XR development to craft captivating virtual realities for a forward-thinking company.

TECHNICAL SKILLS

VR/AR Development: Unity Engine, XR Development, Cross-Platform Mobile Games (iOS/Android)

Game Development: Gameplay Mechanics, Level Design, AI/NPC Logic, Physics Implementation, UI/UX Design

Programming Languages: C#, C++, Python

Tools & Technologies: Git Version Control, Agile Project Management, UiPath (RPA), Full Stack Web Development

IT & Infrastructure: Hardware/Software Troubleshooting, Network Setup & Configuration, Data Security & Backup

Professional Skills: Creative Problem-Solving, Team Collaboration, Project Planning, Effective Communication

PROFESSIONAL EXPERIENCE

Game Developer

Digital Pen | October 2024 – Present

• Collaborate with the design team to implement engaging gameplay mechanics, features, and levels

• Write, test, and refine high-performance C# code to ensure smooth gameplay and efficient memory usage

• Develop and integrate key game features including AI, physics, and interactive UI elements in Unity

• Identify, troubleshoot, and resolve bugs to maintain game stability and enhance user experience

Unity Developer

ArabTesting | July 2023 – October 2024

• Designed and implemented engaging gameplay features and VR/AR experiences using Unity

• Developed and optimized cross-platform mobile games for iOS and Android

• Integrated 3D assets into Unity for games and simulations, and optimized code for smooth performance

• Implemented AI for NPCs and enemies to enhance game dynamics

• Managed source code with Git for effective team collaboration

IT Specialist

MakePlace (Urban Development) | December 2022 – March 2023

• Managed IT infrastructure, including system upgrades, data security, and backups

• Troubleshot hardware and software issues to ensure operational continuity

EDUCATION

Diploma in XR Development

Information Technology Institute (ITI) | March 2023 – July 2023

Diploma in Business Information Systems

Helwan University | October 2022 – July 2023

Bachelor of Commerce, Management Information Systems

Modern Academy | September 2016 – July 2020

Graduation Project: Mobile and Web Application for College Student Attendance (Grade: Excellent)

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

XR Development | ITI | JUL 2023

Agile Project Management | Coursera | June 2023

Crash Course on Python | Coursera | August 2022

RPA Development Courses (Multiple) | UiPath | February 2022

Full Stack Web Development Diploma | Rout Academy | January 2018
